JASON MATTHEW WALKER/Lake City Reporter

Local artist Pedro Jermaine Perry (fourth from left) poses with students from the Hands of Change program after finishing a mural painted in front of Richardson Middle School on Saturday. This project was a way to express their own thoughts and ideas on bullying through art. The wall features an inspirational message for students. 'I have to say that the most amazing thing about this project is the amount of joy it brought to the students and their parents. You could see that they were genuinely happy with their work because their voices can now be heard,' Perry said. 'I am constantly teaching them about leadership and I strongly believe this is huge step in the right direction.'

## Scripture of the Day

"It is my eager expectation and hope that I will not be at all ashamed, but that with full courage now as always Christ will be honored in my body, whether by life or by death. For to me to live is Christ, and to die is gain." — **Philippians 1:20-21** 

## **Thought for Today**

I think the environment should be put in the category of our national security. Defense of our resources is just as important as defense abroad. Otherwise what is there to defend? — **Robert Redford,** American actor (born 1936)
